

**DEFENSE LOGISTICS AGENCY
ENERGY
8725 JOHN J. KINGMAN ROAD
FORT BELVOIR, VIRGINIA 22060-6222**

January 7, 2013

Dear DLA Energy Customer:

This communication is part of a series from the Defense Logistics Agency (DLA) Energy to provide you information and updates concerning the DLA Enterprise External Business Portal (EEBP).

The EEBP provides Business Partners at the Defense Fuel Support Points (DFSPs), Customers, Service Control Point Personnel, and Demand Collaborators with a single point of access to DLA applications.

DLA Enterprise External Business Portal: Reporting Users To Start Requesting Access

ACTION REQUIRED: Reporting Users Only

At this time, users who require Energy Reporting functionality should begin the process of requesting access to the EEBP via DLA's Account Management and Provisioning System (AMPS). **Please note that although access to view Reports via EEBP will not be available until March 1, 2013, your access request must be submitted prior to this date to allow sufficient processing time.**

Users who request and are approved for this functionality will have the ability to view and download the following sales and inventory reports for external organizations and systems:

- EEBP Report for Fast Data
- EEBP Report for WCOS
- EEBP Report for ASKIT
- EEBP Report for GSA
- EEBP Report for DWAS-MAXIMO
- EEBP Report for Coast Guard
- EEBP Customer Sales Report
- EEBP On-Line Vehicle Integrated Management System (OLVIMS) Report

NOTE: For inventory type reports, DFSPs will use FMD.

While all Reports will be accessible on March 1, 2013, sales data will only be available for geographic locations that have been deployed to per the DLA Energy Rollout Deployment Schedule. Please see the EEBP FAQ document posted to [DLA Energy's External Website](#) for the full Rollout Deployment Schedule.

NOTE: All Line of Accounting (LOA), Delivery Location Conditions, Planning Collaboration, and Ordering users should have already applied for their appropriate AMPS role(s) at this time. Please refer to [DLA Energy's External Website](#) to access communications and Job Aids pertaining to the above functionality.

The process to request access to the EEBP is as follows:

- **Step 1: Create an account in AMPS.** AMPS is DLA's automated application access system that processes access requests, account creation, and maintains user accounts. If you do not already have

an AMPS account, go to <https://amps.dla.mil/> and follow the instructions found within the provided job aid (below) on how to create an AMPS account

NOTE: If you are a current PORTS or FES users, you may already have an AMPS account.

- **Step 2: Submit a role request via AMPS.** You will receive an email confirmation once your AMPS account has been created. You will then need to use AMPS to submit a “role request” for access to EEBP applications

Job aids on requesting roles in AMPS have been posted to DLA Energy’s external website, providing step-by-step instructions and screenshots on how you will submit your request. Please select the appropriate job aid based on the email address you will use to submit your AMPS request, and if you are a CAC or NON-CAC user.

- [Enterprise External Business Portal - AMPS Job Aid for DLA.MIL CAC](#)
- [Enterprise External Business Portal - AMPS Job Aid for NON CAC](#)
- [Enterprise External Business Portal - AMPS Job Aid for NON-DLA.MIL CAC](#)

- For Energy Reporting functionality (includes all EEBP reports listed above), you will select one of the below roles in AMPS:

AMPS Role to Select for Users Without a “dla.mil” Email Address	AMPS Role to Select for Users With a “dla.mil” Email Address
JD-2206 / JD-2206B*: Energy Report Viewer	JD-796/ JD-796B*: Energy Report Viewer

- For Energy SCP Reporting functionality (includes additional SCP-only reports in addition to all EEBP reports listed above) , you will select one of the below roles in AMPS:

AMPS Role to Select for Users Without a “dla.mil” Email Address	AMPS Role to Select for Users With a “dla.mil” Email Address
JD-2207 / JD-2207B*: Energy SCP Report Viewer	JD-797/ JD-797B*: Energy SCP Report Viewer

NOTE: The first AMPS role selected by a user becomes their primary JD. Once a user has requested a primary JD, the primary JD must be fully approved before the user can request a secondary JD. If the primary JD has not been approved, the user will receive an error message when requesting their secondary JD.

* Denotes a secondary JD. This option will only appear in AMPS if the user already has a primary JD.

- **Step 3: Notify Your Supervisor and Security Officer:** When submitting your role request in AMPS, you will be required to provide the name and contact information of your direct Supervisor and Security Officer who will perform a review and approval of your request. Below is a communication to provide to your Supervisor and Security Officer, notifying them of their role as an AMPS approver. It is critical that you send this communication prior to submitting your role request in AMPS, so they are aware they will receive your request. This communication also contains a job aid that will assist them with conducting the approval process.

NOTE: If you will request a role in AMPS using a “dla.mil” email address, your Security Officer will be pre-populated in AMPS, and the communication does not need to be sent to the Security Officer.

RECENT CHANGES TO DFSP DoDAACs: For DFSP personnel, the inventory DoDAAC(s) will change when you move to EBS. This means your FMD DoDAAC set up will change also. The Service-sponsored DoDAAC will no longer be used for the inventory location. Service-sponsored DoDAACs will be used only for Customers. We will use a DLA-sponsored DoDAAC for DLA inventory locations. Please reference the [DoDAAC Matrix](#) posted on [DLA Energy's External Website for EEBP](#) to ensure your AMPS request for DLA Inventory Resupply functionality reflects the most current DoDAAC(s).

EEBP Job Aid Walk-Throughs:

All Reporting users that will begin using EEBP on March 1, 2013 are encouraged to attend two Job Aid Walk-Throughs which will be accessed via Defense Connect Online (DCO). Both Reporting and SCP Reporting users are encouraged to attend one of each Job Aid Walk-through: **Submitting a role request in AMPS** and **Accessing and Navigating the EEBP** prior to using EEBP for Reporting.

To access DCO, click the link provided below at the scheduled time. Log in as a guest. Identify your first and last name when prompted. Make sure your computer speakers are turned on so that you can hear the presentation or dial-in using a touch phone using the numbers provided below.

1. All Reporting Users: Submitting a role request in AMPS

- Two sessions are scheduled for **Wednesday, January 9, 2013**
- Users may dial-in using a touch phone at: 703-767-8517

Session 1:

Time: 0900-1030 EST

The DCO Session can be accessed at: <https://connect.dco.dod.mil/reportingsession1>

Session 2:

Time: 1500-1630 EST

The DCO Session can be accessed at: <https://connect.dco.dod.mil/reportingsession2>

2. Reporting Users: Accessing and navigating EEBP

- Four sessions are scheduled for **Wednesday, February 20, 2013** and **Thursday, February 21, 2013**
- EEBP Reporting Job Aids will be sent via email prior to the sessions, and will be accessible through the EEBP once a user has access and logs on

Session 1: February 20, 2013

Time: 1300-1500 EST

Dial-in Phone number: (703) 767-0678

The DCO Session can be accessed at: <https://connect.dco.dod.mil/reporting1>

Session 2: February 20, 2013

Time: 1600-1800 EST

Dial-in Phone number: (703) 767-0678

The DCO Session can be accessed at: <https://connect.dco.dod.mil/reporting2>

Session 3: February 21, 2013

Time: 1300-1500 EST

Dial-in Phone number: (703) 767-0678

The DCO Session can be accessed at: <https://connect.dco.dod.mil/reporting3>

Session 4: February 21, 2013

Time: 1600-1800 EST

Dial-in Phone number: (703) 767-0678

The DCO Session can be accessed at: <https://connect.dco.dod.mil/reporting4>

For additional information, refer to [DLA Energy's External Website](#) to access the EEBP FAQ document and all previous EEBP communications.

If you encounter technical difficulties or require assistance, please call the DLA Energy Help Desk (formerly BSM-E and ECCC) at 800-446-4950, DSN: 697-6733/34/35/36/37/38, or Fax: 770-582-1463. You may also contact the DLA Energy Help Desk at any time by sending an e-mail message to Energy.HelpDesk@dla.mil.

All information regarding EEBP and AMPS will be posted to the [DLA Energy's External Website for EEBP](#).

For additional questions or if this communication has been received in error, please contact DLAEnergyConvergence@dla.mil.

Sincerely,

DLA Energy

DEFENSE LOGISTICS AGENCY

AMERICA'S COMBAT LOGISTICS SUPPORT AGENCY

This message is being sent as part of a series of communications from the Defense Logistics Agency (DLA) Energy intended to bring you information and updates concerning the DLA Enterprise External Business Portal (EEBP).

****You have been identified as an approver for DLA Energy Convergence application access****

If you are receiving this communication, you have been identified as a Supervisor or Security Officer by a DLA Energy Convergence application user. As a Supervisor or Security Officer you will be required to review and approve user access requests via DLA's Account Management and Provisioning System (AMPS).

The Enterprise External Business Portal (EEBP) provides Business Partners at the Defense Fuel Support Points (DFSPs), Customers, Service Control Point Personnel, and Demand Collaborators with a single point of access to DLA applications. Customers or Business Partners that need to view and download sales and inventory reports for external organizations and systems will be impacted by the EEBP when Reporting functionality goes live on **March 1, 2013**. In preparation for this change, users will have to request access to the application prior to the go-live date via AMPS.

The process for users to submit a request will be as follows:

- **Step 1:** Users create an account in AMPS. AMPS is DLA's automated application access system that processes access requests, account creation, and maintains user accounts. There will be no action for the Supervisor or Security Officer at this time
- **Step 2:** Users submit a role request in AMPS. After a user's AMPS account has been created, they will submit a "role request" for access to their respective application
- **Step 3: Your Action:** At this time, as the Supervisor or Security Officer, you will receive an email stating that an access request has been submitted for your approval. This "System Authorization Access Request" (SAAR) will detail the application for which a user is requesting access. You will need to take steps to review the SAAR and approve or deny the request. Please reference the job aid below for details on how to conduct the approval process

NOTE: If the user requests a role in AMPS using a "dla.mil" email address, a designated DLA Security Officer will be required to review and approve the SAAR instead of the user's Security Officer.

Over the coming weeks you will receive requests to approve SAARs via email. Please complete your review and approval of the SAAR within 48 hours of receiving the email request. Your review is one of the first steps in a series of reviews that will conclude with DLA Data Owner and DLA Information Assurance Officer approval.

Detailed instructions and screenshots on how to review and approve these SAARs are provided in the [AMPS Approver for External Users Job Aid](#) posted on [DLA Energy's External Website for EEBP](#).

Should you have any questions or feel as though this email has reached you in error, please reach back out to the person who originally sent this communication to you.
